PROFESSIONAL EXPERIENCE

Enterprise Architecture & IT Operations Intern
Orlando Utilities Commission, Orlando, Florida May 2026 – Present

- Utilize LeanIX to manage and analyze 100+ applications across the company's IT landscape, ensuring accurate tracking of lifecycle data and interdependencies to support business continuity and technology planning.
- Collaborate with enterprise architecture teams to develop roadmaps for cloud services, digital transformation initiatives, and AI integration efforts aligned with organizational objectives.
- Troubleshoot and resolve hardware, software, and account access issues for 400+ end users, improving operational efficiency in a fast-paced enterprise environment.
- Gather, organize, and validate internal audit data for enterprise applications and IT assets, supporting compliance initiatives and operational reporting across the IT landscape.

IT Analyst Intern
Florida State University, Tallahassee, Florida December 2025 – May 2026

- Provided technical support to 200+ end users, resolving hardware, software, and access-related issues in a fast-paced enterprise environment.
- Collected and analyzed IT operational data to identify system inefficiencies and support process improvement initiatives across office of research departmental technology services.
- Utilized enterprise device management tools, including Microsoft Intune and PDQ Deploy, to assist with software deployment, device configuration, and endpoint management.
- Managed IT asset inventory records and coordinated the surplus process for 95+ decommissioned devices, ensuring accurate documentation and asset tracking compliance.

LEADERSHIP EXPERIENCE

Quest Ambassador
Florida State University, Tallahassee, Florida August 2024 – May 2026

- Planned and executed student engagement events serving 700+ students, fostering community and belonging among first-generation and underrepresented students at Florida State University.
- Analyzed event participation trends and collected attendee feedback to implement operational improvements, contributing to a 30% increase in event attendance.
- Prepared concise, data-driven summaries for leadership outlining program outcomes, risks, and opportunities for growth and expansion, with an emphasis on effectiveness and cost efficiency.
